The contrasts and brightness of a starlit sky become the inspiring concept of a surface that welcomes and gently reflects light: the ton-sur-ton vein patterns and metal-flake reflections emphasize the elegance of an unprecedented and trendy material. Thanks to the charm created by the change in tone and by the iridescent shades, Galaxy distinguishes modern settings with a strong personality.

The Mosaico that completes the series is inspired by bright and refined metals: available with Bacchetta Oro (Golden Strip), Bacchetta Bronzo (Bronze Strip) or with Bacchetta Argento (Silver Strip), it consists of three different modules that are mixed together randomly to create original geometric combinations.
