P|S

Telluride

11 Colors - 18 Patterns
Glossy | Matte
3"x5" - 9mm

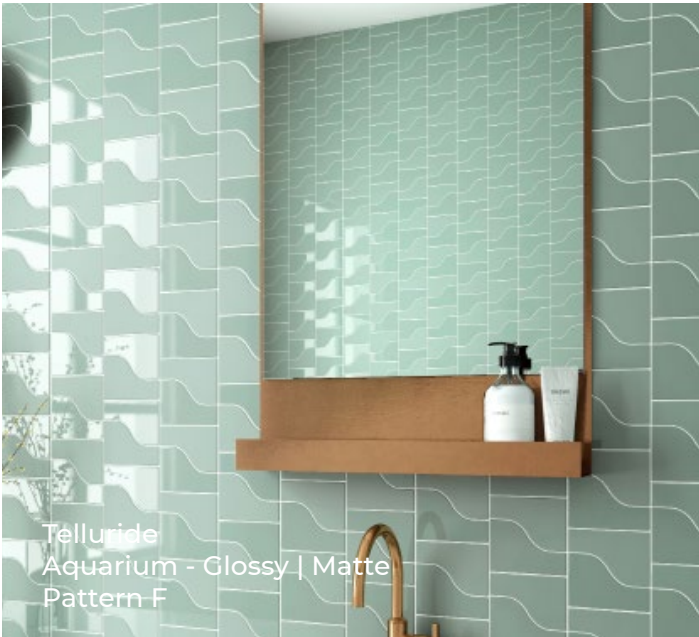

Inspired by the slopes and light reflection off the snow, Telluride unites the strength of its right angles with a sinuous wave that invites us to rise, to ascend. A design with a lot of personality, which does not go unnoticed.

Telluride invites you to play with its multiple possibilities, to break the curve or give it continuity and combine its two matte and glossy finishes.
